

Sadia Afrin Jhilik

409, Senpara Parbata, Mirpur, Dhaka | +880-01938-752205 | saafrin385@gmail.com

Profile

Civil Engineer with a B.Sc. in Civil Engineering from Ahsanullah University of Science and Technology and academic experience in geotechnical and foundation engineering with a focus on shallow foundation analysis and design. Demonstrated knowledge in soil investigation through SPT and laboratory testing, evaluation of bearing capacity and settlement characteristics, and structural load assessment using standard geotechnical design methods. Experienced in performing both manual foundation design calculations and software-based analysis using GEO5 to validate and compare design outcomes for reliable and safe foundation solutions. Possesses strong interest in foundation engineering, seismic-resilient structural systems, environmental engineering, green infrastructure, and hydrology, with a commitment to contributing toward safe, sustainable, and resilient urban development through analytical problem-solving and engineering-driven solutions.

Employment History

BUSINESS DEVELOPMENT EXECUTIVE | ECLECTIC LIMITED | NOVEMBER 2024 – CURRENT

1. Project Name: Rehabilitation & Maintenance Works of SuPRB Program

Duration: 01/09/2024 – 30/06/2025

Client: Local Government Engineering Department (LGED) September

Responsibilities Undertaken:

- Prepared a comprehensive report on project operations covering inspection-based minor repairs, major repairs, and rehabilitation activities for 340,188 structures.
- Participated in vetting and field visits to collect visual evidence and ensure accurate documentation in the final report.

2. Project Name: Rehabilitation of Postogola Bridge

Duration: 02/2022 – 08/03/25

Client: Roads and Highways Department (RHD)

Responsibilities Undertaken:

- Developed a full technical report on the rehabilitation of Postogola Bridge after severe damage caused by a launch accident.
- Documented the complete rehabilitation methodology, including assessment and repair procedures for the damaged girders.

3. Project Name: Consultancy Services for Bridge/Culvert Inspection, and Data entry operation with the help of existing Manuals and BMS Software under Chattogram and Sylhet zone of Roads and Highways Department

Duration: 11/2024 – 24/03/25

Client: Roads and Highways Department (RHD)

Responsibilities Undertaken:

- Contributed to an extensive inspection program for a large number of bridges and culverts to assess structural health and condition.
- Assisted in building a systematic bridge database using BMS software, integrating inspection data with evaluation outcomes.
- Prepared detailed reports on inspection findings, structural condition assessments, training activities, software improvements, and future recommendations.

4. Project Name: Inspection, Data Collection and Entry Services of Bridges/Culverts of Upazila and Union Roads with the help of Existing Rural Bridge Health Inspection and Condition Assessment Manual and RuBIMS Software of selected Pilot Districts of 8 Divisions (Contract No. SD 47-1)

Duration: 27/03/2025 – 24/08/25

Client: Local Government Engineering Department (LGED)

Responsibilities Undertaken:

- Supported the inspection of bridge structures using the Rural Bridge Health Inspection & Condition Assessment Manual and the RuBIMS software. Compiled full reports covering collected inspection data, structural health conditions, training sessions, software upgrades, and strategic recommendations.

**JUNIOR ENGINEER (INTERN) | DEPARTMENT OF WORKS AND HIGHWAYS – GOROKA, PAPUA NEW GUINEA|
JANUARY 2023 – APRIL 2023**

1. Consultancy on Sustainable Highlands Highway Investment Program, Tranche 2, Goroka, Eastern Highland Province, Papua New Guinea (PNG) under Asian Development Bank

Client Department of Works and Highways, Papua New Guinea

Responsibilities Undertaken:

- Assist the National/International Bridge Engineer & Program Director in various technical analysis, design calculations, quantity estimates, preparation of tender documents etc. required for the project.
 - Preparation of Basic design report, meeting minutes & monthly progress report for the project.
-

Education & Training

B.SC IN CIVIL ENGINEERING | DECEMBER 2023 | AHSANULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY

TRAINING SESSION ON "INTRODUCTION TO GIS USING QGIS" Onushandhani Creeds Limited

Field of Study: Geographic Information Systems (GIS)

Soft Skills

- Microsoft Office Suite
- MS Project
- QGIS
- MIDAS
- AutoCAD
